McDaniel Family

Much more than groups of individuals, we share goals and aspirations. We believe that the family is the place where every child and adult should feel that he or she is special and be encouraged to pursue his or her own dreams; a place where everyone's individuality is permitted to flourish.

MORE THAN ANOTHER APP

Much like a roof doesn't make a house a home, we care about welcoming each guest, sitting down, sharing in life's lessons and carrying on the traditions that make the institution of family truly great. With that we would like to welcome you Home.

REACHING NEW MILESTONES

Milestones are the moments we look back at and realize just how far we have come. They can be large celebrations or the smallest hurdles we've overcome. Regardless of their grandeur, it was these moments that define our past and shape our future.

A LIVING STORYBOOK

In the future our children will not simply see an image of their Great-Grandmother or hear a faint story of Great-Grandpa's magnetic charm. Instead, they will journey through a living story of their relatives. From hardship and failures to the unyielding character that prevails through circumstance, they will share the experience in vivid detail... probably from their space phone.

CONNECTING GENERATIONS

Commonly it is said that grandchildren are the reward for making it through the long years of parenthood. It's incredible how each cookie from Grandma was actually packed with chunks of chocolate love. How about packing a Time Capsule to be opened when they turn 18 and being able to meet them there to tell them just how much you care.
